

## Geometry 1e: Right Angles in the Plane

### Homework #5

**\*REMEMBER to do in Power Homework Format!!!**

*In 1 & 2, find the slope of the line perpendicular to the given line.*

1. The slope of  $\overline{GA}$  is  $-5$
2. The slope of  $\overline{BR}$  is  $\frac{2}{3}$
3. What is the slope of a line that is perpendicular to the graph of  $y = -\frac{7}{5}x + 3$ ?
4. A triangle is formed with vertices at  $A(-7, -1)$ ,  $B(-2, -3)$ , and  $C(2, 7)$ . Is  $\triangle ABC$  a right triangle? If so, which vertex forms a right angle? Use slopes to justify your answer.
